

Dear **ICCC2020 participant**,

owing to the increasing spread of COVID-19 disease worldwide and given the serious restrictions due to this sanitary problem that our country is facing with, the Organizing Committee has regretfully taken the unavoidable decision to postpone the 44th ICCC conference of one year. **Hence, the conference has been rescheduled from June 27th to July 2nd 2021.** The conference venue will not change as well as the hosting city (Rimini). This decision was made while keeping in mind the health and well-being of the International Coordination Chemistry community in accord with the Inorganic Chemistry branch of the Italian Chemical Society and the ICCC International Advisory Board.

For those of you who have already registered for 2020 and paid the corresponding fees, you can keep this registration for 2021! In case of confirmation, we will keep your registration fees and maintain your personal details in the conference account, and no further action is required for the time being. If you are not able to attend the meeting in 2021 anymore, we will entirely reimburse your registration fees and we will delete your account from the ICCC website. Registration fees will be reimbursed to participants upon written request by sending few lines with your decision **before May 30th, 2020** to: iccc2020.registrations@aimgroup.eu

As for the scientific program, the decision to postpone the conference will translate into a revision of the scheduled program (particularly in terms of number and type of topics) whose changes will be communicated as soon as possible. All information on this point will be made available to all ICCC attendees on the conference website.

We will answer to all your messages but please be patient if our reply will take a little while.

Thank you for your understanding and your strong support to the 44th ICCC event. We will continue to keep you informed with the latest information and we really hope to see you in 2021 in Rimini.

The ICCC 2020 Organizing Committee.
